
STATUS REPORT

Eurotary87 – Rotary Denmark's Help Fund – Korsør Nor Rotary Club

*Dining-, assembly- and activity Hall
Kihansi Secondary School, Mpanda - Tanzania*

ROTARY – Making a difference.

Status report for the Mapanda dining-, assembly- and activity Hall.

Partners:

Søren Nielsen

Eurotary87

Rotary Denmark Help Fund

Korsør Nor Rotary Club

Tushikane e.V.

Tuungane, Mpanda Tanzania

Kihansi Secondary Shool

Project: establishment of a dining-, assembly- and activity Hall for Kihansi Secondary state School, in the village of Mapanda in southwest Tanzania.

History: The project organization Tushikane e.V. was established in 2009 in Würzburg by 9 dedicated "friends" of Africa

Purpose: To support a social project in Africa

Project focus: education, health, agriculture, small loans

Board members (5 persons) are elected every two years.

All work voluntarily and everyone has experience working in Tanzania or Africa.

Most projects take place in the village of Mapanda in southwest Tanzania. Reliable partners (Tuungane) to ensure that project resources are utilized 100%.

A focused, interested group, Tuungane, 25 men and women who live in the village, takes care of the proper implementation of Tushikane npo (non profit organization) projects concurrently.

Korsør Nor Rotary Club cooperates with Tushikane npo through a former member, Søren Nielsen, who for 8 years was a member of the Korsør Nor Rotary Club. He lives in Würzburg, Germany.

Kihansi Secondary Shool in Mapanda

Is our main project partner. It is a state school with 370 students from 5 villages and 14 teachers

120 of the children are orphans

There is a plan for a dining room for everyone to create "family feel" and intercourse by eating together in a room.

At the same time, food remains in classrooms and in the school area are avoided. In addition, there is a place where students can gather for celebration, party and meeting or for preparation in larger groups.

It is this dining room construction we have supported.

Price: according to budget 72mio TZSH (about 32,000 Euro)

Construction start: October 2017; - Construction completed: June 2018

Responsible: Tushikane npo.

Entrepreneur: "Baba Injinia" from Arusha. (They were also responsible and contractors and responsible for building kitchen and water projects (see later).

Responsible concurrent: Tuungane, Tushikane's partner on site. Tuungane was also responsible and successfully completed the completion of water and kitchen projects.

Local Municipality responsibility: Acquisition of aluminum sheets to roof.

The project progress:

As agreed with the project organization, Korsør Nor Rotary Club have received continuously information on the development of the project.

In February 2017, the board member of Tushikane e.V., Stephen Makinya and ca. sponsor Søren Nielsen, visited Korsør Nor Rotary Club for personally reporting the situation and progress in the project. On this occasion, Stephen Makinya received the contribution from Eurotary87, Rotary Denmark Help Fund and Korsør Nor Rotary Club of 120,000. / 15,500, - € (mobile pay photo)

Through the whole progress of the project, - the budget and time schedule has been kept very close and finally the project meets the deadline and efficiency in purchasing material kept the cost lower than budgeted, - which gave us the opportunity to grant the excess funds for furniture, which means that the hall is now also equipped with furniture. (see photos).

In July 2018 David Drachmann-Sunne (now past president) meet up with very proud and grateful members of the board of Tushikane e.V. and Søren Nielsen in Germany, to shake hands on a “mission well accomplished”.

Please find below the final financial settlement for the Mpanda dining-, assembly and activity hall.
